

January 26, 2010

Dear Occupant/Owner:

Please be aware that Public Service Electric and Gas (PSE&G) has contacted the Village and would like to upgrade/replace natural gas main and services for East and West Ridgewood Avenues. As you are aware, the Village of Ridgewood plans to do major street resurfacing work for both of these streets later in 2010.

Public Service is planning to start this work in March of 2010; although, they may start earlier, as the Village has requested. The Village proposed to PSE&G that work on East Ridgewood Avenue be done only at night from Sunday 10:30 PM to 6:30 AM Friday. This is viewed as the least disruptive for the business district.

Attached is a map which depicts the area to be impacted.

Should you have any questions, please do not hesitate to contact the Engineering Division at (201) 670-5500, ext. 238. More importantly, if you feel a better eight hour construction period should be approved, we would need to hear your suggestion immediately.

Sincerely,

Kenneth A. Gabbert
Village Manager
Village of Ridgewood
